

MPLS062

Stainless lid

W	600
Item no.	MPLS062

Description: For replacing the standard lid on MPC desk units or MPG consoles where high corrosion resistance is required.

Material: 2 mm AISI 304 pre-grained stainless steel.

Finish: 400 pre-grained stainless steel.

A stainless steel lid for a mild steel desk is a cost effective alternative to a complete stainless steel desk within certain environments. For example, a mild steel lid would deteriorate quickly if operators are exposed to chemical agents and transfer them onto it during operations and maintenance.
