INCARA™ ON DESK

Compact, ergonomic design

Incara On Desk combines ergonomics, a modern design and optimised dimensions for discreet integration without taking up much space.

APPEARANCE

A sleek design, without visible screws, for seamless integration in modern office environments.

Aluminium and ABS Incara On Desk desktop multi-outlet extensions are available in 3 timeless finishes: Black, Black/Aluminium and White.

Black

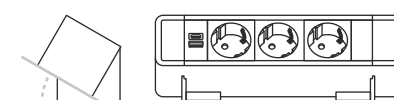

Black/Aluminium

White

ERGONOMIC DESIGN AND QUICK INSTALLATION

- Its angled setting makes it much easier to access the sockets.
- Flush sockets are easier to clean and give the product a more stylish appearance.

Fixing desktop multi-outlet extensions on the furniture couldn't be simpler. 3 possible options to suit your needs and wishes:

- 1 simply placed on the desk
- 2 attached with the double-sided tape supplied with the product*
- 3 attached with the fixing accessory:
 - just 1 accessory for 6-module desktop multi-outlet extensions
 - 2 accessories for 8 and 12-module desktop multi-outlet extensions.

2

On Desk desktop multi-outlet extension attached with double-sided tape

3

On Desk desktop multi-outlet extension held in place with the fixing accessory

* Incara On Desk can be removed later, if necessary, without damaging the furniture.

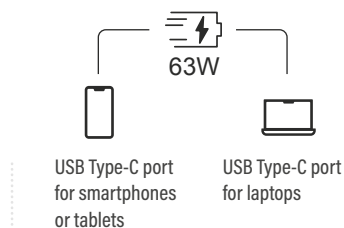

INCARA™ ON DESK

In charge of charging

Fast charging for laptops and smartphones:

The desktop multi-outlet extension equipped with a 63 W Power Delivery dual USB Type-C charger allows you to plug in and charge up to two devices simultaneously: PCs, tablets, smartphones via a USB Type-C cable.

The charger optimises the charging speed of terminals compatible with the Power Delivery and Quick Charge USB protocols (for a faster charging rate than conventional technologies).

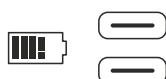

2 x 2P+E sockets, for supplying other types of equipment such as a desk lamp, for example

The Incara On Desk range of desktop multi-outlet extensions also includes other models equipped with USB chargers:

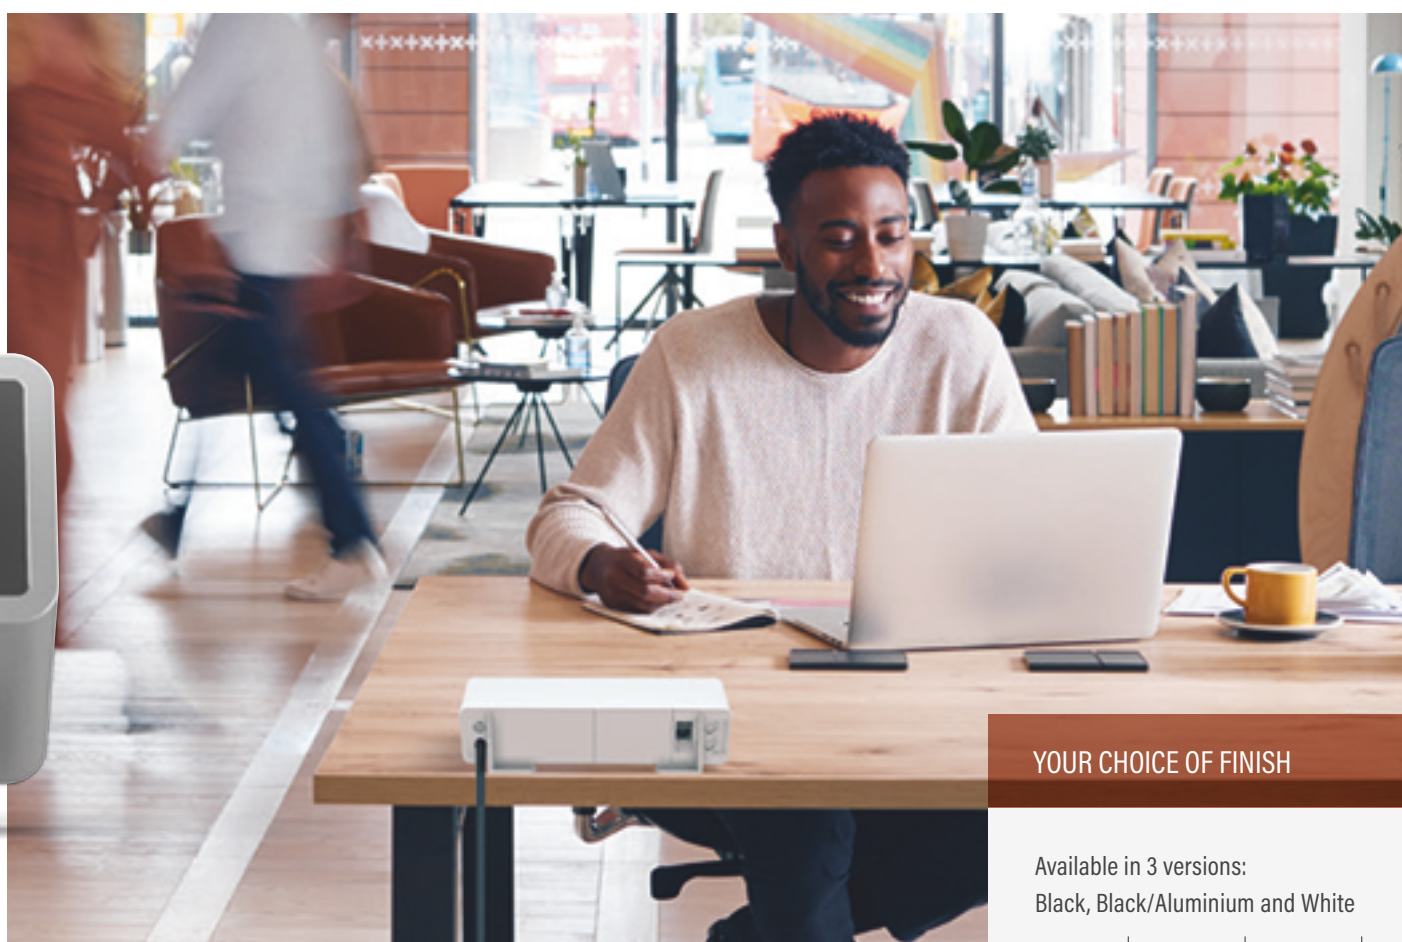

Desktop multi-outlet extensions with 15 W USB Type-A + Type-C charger

Desktop multi-outlet extensions with 15 W dual USB Type-C charger

Desktop multi-outlet extensions with 45 W Power Delivery USB Type-C charger for fast charging

YOUR CHOICE OF FINISH

Available in 3 versions:
Black, Black/Aluminium and White

INCARA™ ON DESK

A number of functions in a single extension block

Incara On Desk can take any of the 250 Mosaic™ functions (such as 2P+E sockets, USB chargers, RJ 45 or HDMI sockets), thus making it extremely versatile and capable of meeting the most diverse connection needs, whether for a meeting room or an individual workstation.

Multimedia functions, HDMI and RJ45 sockets at your fingertips

Desktop multi-outlet extensions with Cat. 6 FTP RJ45 and HDMI 2.0 data sockets are ideal for a meeting room, in which the screen can be projected using the HDMI socket.

RJ45 and HDMI sockets are feedthrough sockets which allow connection from the rear in no time at all by simply connecting a male plug.

YOUR CHOICE OF FINISH

Save energy while you're out of the room

Desktop multi-outlet extensions with a double-pole switch allow you, with a single gesture, to cut the power supply to any plugged-in devices to avoid them consuming energy in standby mode. No need to unplug everything at the end of your working day.

Safer than ever

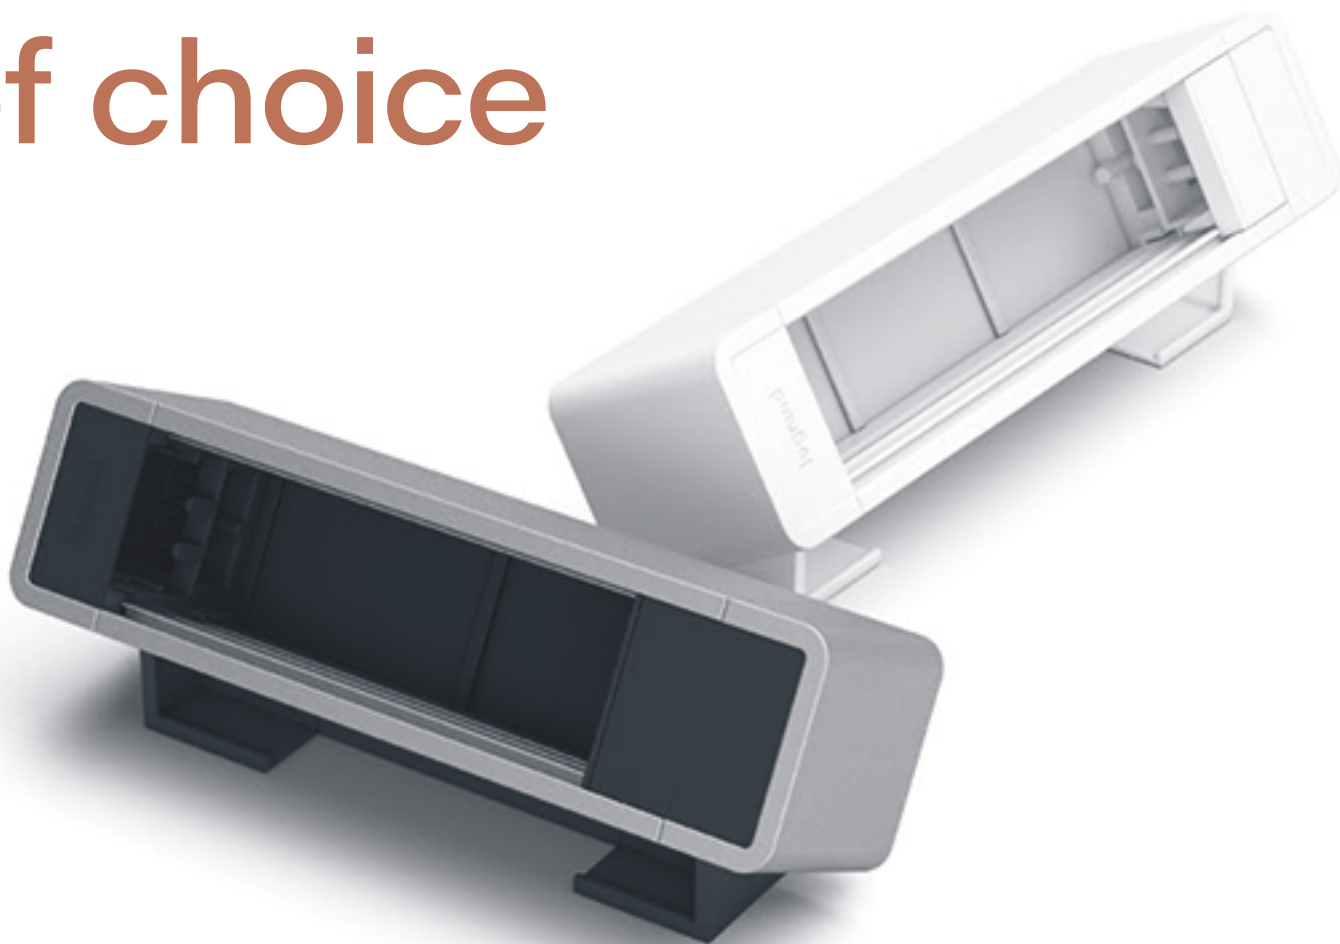

The tamperproof sockets available on dedicated desktop multi-outlet extensions can be used to power a computer via a dedicated circuit with a UPS to prevent data being lost in the event of a power outage. The tamperproof insert prevents connection errors.

Available in 3 versions:
Black, Black/Aluminium and White

INCARA™ ON DESK

Freedom of choice

DESKTOP MULTI-OUTLET EXTENSIONS TO BE EQUIPPED

Incara On Desk desktop multi-outlet extensions to be equipped are available in all 3 finishes with 6, 8 and 12 modules, and can be equipped with any Mosaic™ functions.

OUR BESPOKE OFFERS

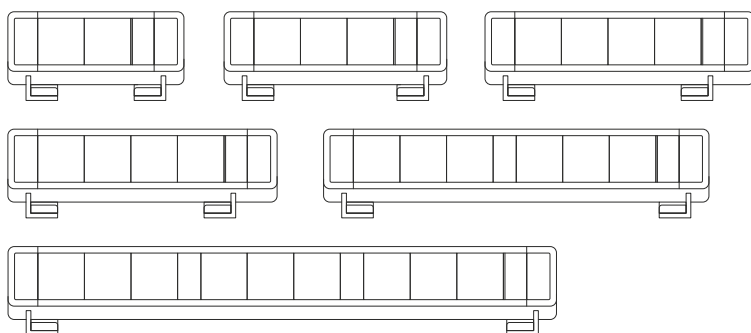

Are you planning to upgrade your office furniture? Are you an office furniture contractor or professional user?

With Legrand's bespoke service, you can easily configure all Incara On Desk products to create customised products that meet your customers' specific requirements, at all levels.

MODULAR PRODUCTS, FULLY CONFIGURABLE

The Incara On Desk offer can be configured and customised in order to adapt to any office environment.

- Configure products with any of the 250 Mosaic™ range functions.
- Adapt the type of power supply, the length of the power cord or the dimensions of your products. Available with from 5 to 18 usable modules*
- Available in all 3 finishes

* 1 x 2P+E socket = 2 modules

INCARA™ ON DESK

Connected solutions

A COMPLETE SYSTEM

With connected solutions and the Home + Control app, you can benefit from an innovative system to control your office's electrical installation, for optimum comfort and energy management. Lighting, roller shutters and electrical office equipment can all be controlled locally from your workstation, or remotely using your smartphone and/or voice (via a voice assistant). The app also gives you the option to customise life scenes, schedule equipment operation between certain times of day, monitor power consumption in detail and set alerts on a smartphone.

Remote control

Voice control

Easy scheduling

Smart energy management

THE HOME + CONTROL APP is completely free and available from the App Store and Google Play.

COMPATIBLE WITH THE LEGRAND BMS SYSTEM
For more information, please consult us.

The Legrand Cloud hosts and manages data and keeps it secure.

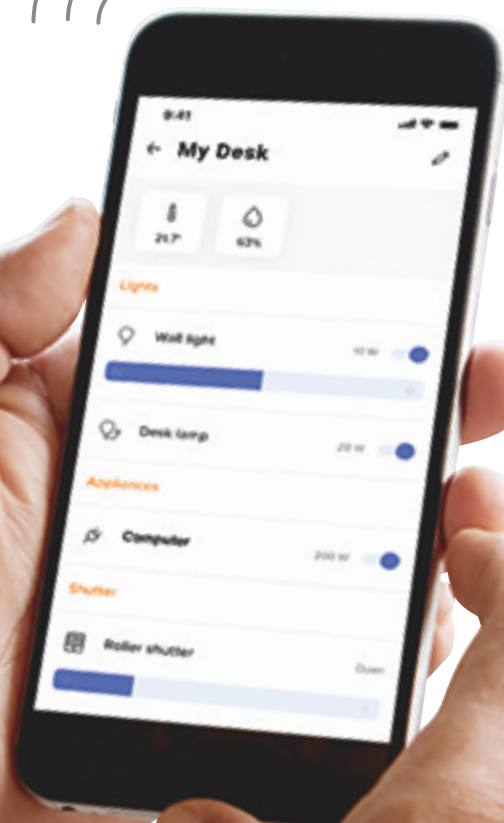

Wi-Fi router

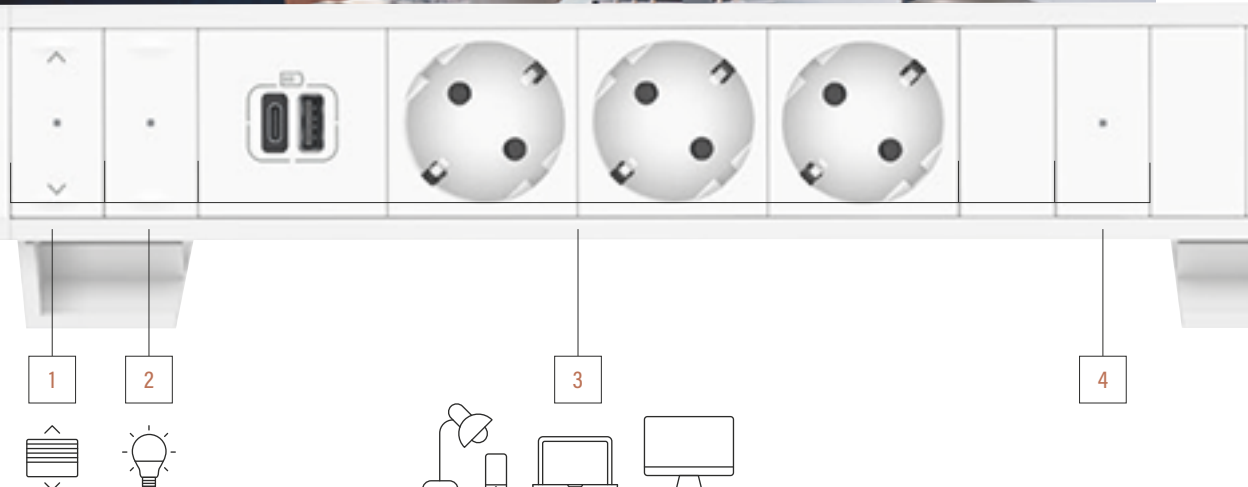

The gateway acts as an interface between the Wi-Fi router and the Legrand connected products. It needs to be connected to a power outlet. Other gateway versions are also available in the "with Netatmo" wiring accessory ranges or for integration in the distribution board.

The Home + Control app can be used to control offices remotely and stay informed.

CONFIGURATION EXAMPLE: CONNECTED INCARA ON DESK, INSTALLED ON THE WORKSTATION

- 1 Wireless roller shutter and blind switch (battery-powered)
- 2 Wireless light switch (battery-powered)
- 3 Connected 2P+E sockets and USB A+C charger (power supply for PC, monitor, smartphone, desk lamp, etc)
- 4 Module for connected socket

PRODUCTS

Connected solutions are available in Mosaic™ with Netatmo⁽¹⁾. You can contact our customisation service to define your desired configuration or for more specific requirements.

(1) Mosaic™ with Netatmo: Legrand's connected Mosaic™ range can be controlled with the Home + Control app.
(2) To be ordered separately depending on the functions required

Examples of add-on products⁽²⁾

AND/OR
