2. UDH2C/UDH3C Swinghandle

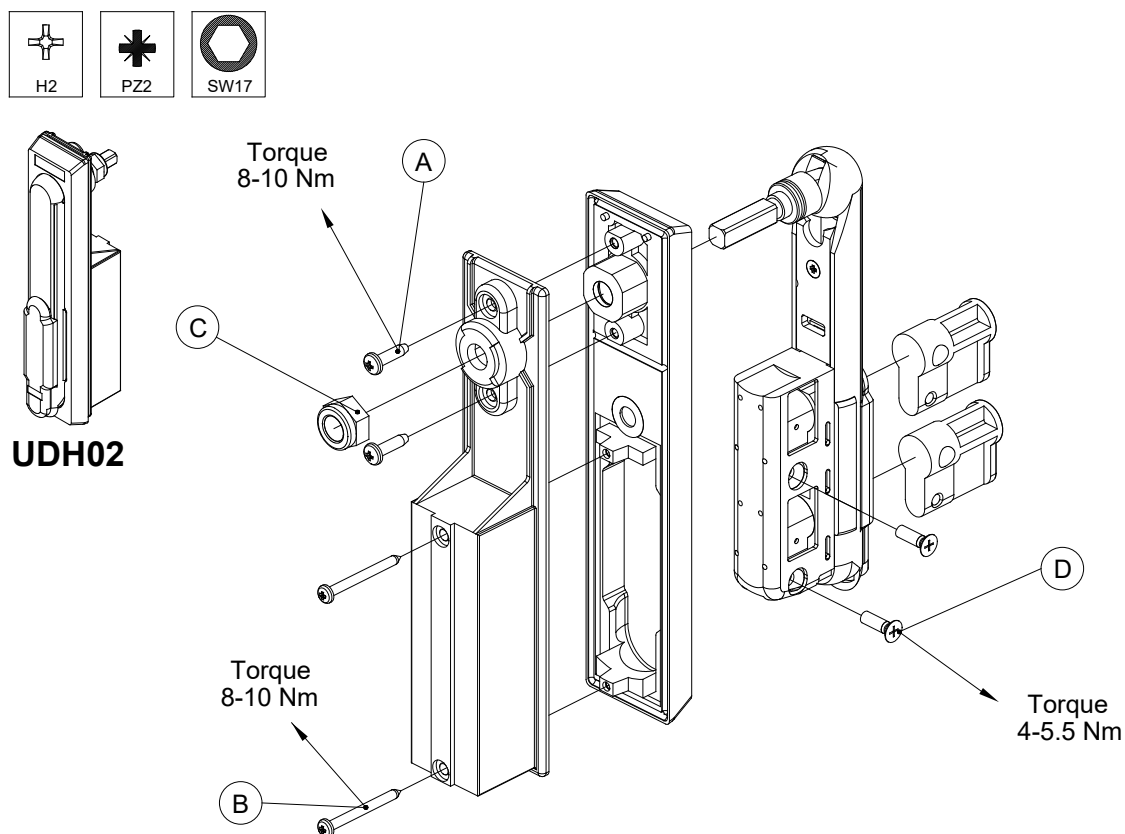

Above drawing is a general drawing for these swing-handles and may vary from the product specified like mentioned below.

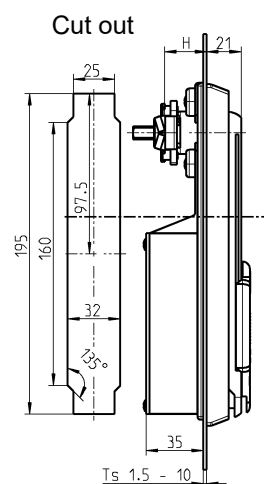

UDH2C/UDH3C:

- does include a plastic cap above the lock insert like shown in the picture. This cap can be sealed. It is foreseen for protecting the lock itself from environmental impacts.
- does not include the profile half cylinder itself.
- does not include the locking mechanism on the inner side like closing cams or locking bars.

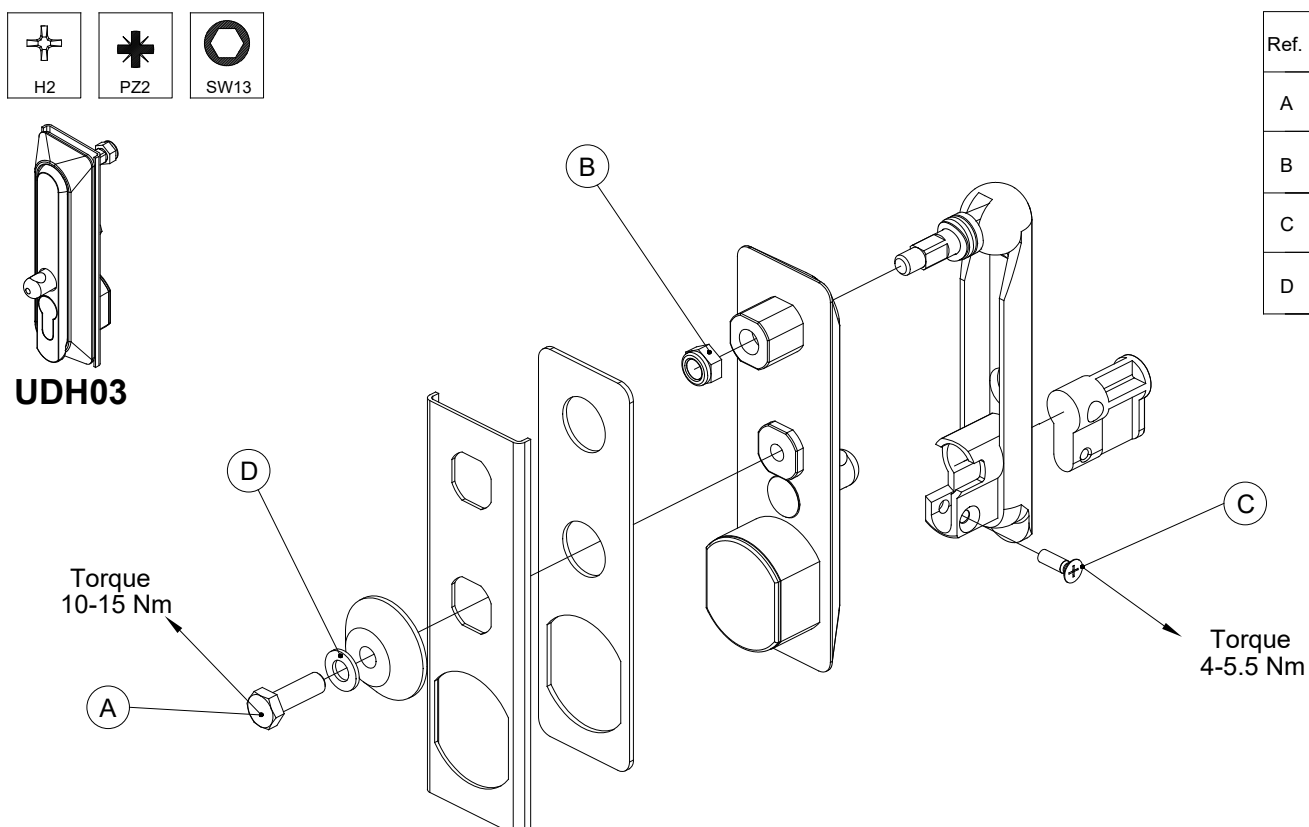

3. UDH02 - Handle for cylinder lock

Ref.	Pic.	Qty.
A		2
B		2
C		1
